

TAPE BELT-CLIP^Ô

PATENT PENDING

BY KARAJEN CORP.

Keep tape at your side with the new *TAPE BELT-CLIP^Ô* by Karajen Corp. Eliminate lost time searching for rolls of tape that you were just using! Keep your tape from getting lost or damaged. And best of all, keep your hands free when tape is not in use.

The attached powerful magnet will hold various tools such as a blow gun, work blade, or other small metal object. The magnet also acts as a slight counter weight to keep the clip from slipping up and out of its position.

The new *TAPE BELT-CLIP^Ô* is amazingly easy to use and will make masking so much easier!
